

LJS6035Z SMALL SCISSOR LIFT

The Dato Small Scissor Lift is designed for professional automotive workshops, offering a 3500 KG lifting capacity, durable construction, and stable performance for vehicle maintenance and repair. Its compact design makes it ideal for garages with limited space while ensuring safe and efficient lifting.

Specification

Lifting Capacity	3500 KG
Maximum Lifting Height	2130 mm
Minimum Height	330 mm
Lifting Time	55 Seconds
Platform Width	550 mm
Machine Length	1550 mm
Machine Width	1980 mm
Motor Power	2.2 kW
Voltage	380V / 50Hz / 3 Phase
Air Pressure	6-8 Bar
Net Weight	696 KG

Key Features

- Heavy-duty 3500 KG lifting capacity
- Strong and durable scissor structure
- Suitable for automotive workshop service
- Smooth and stable lifting performance
- Compact design for space-saving installation

Advantages

- Saves Workshop Space
- Quick Vehicle Access
- Improves Working Efficiency
- Durable & Long Service Life
- Safe & Stable Lifting System
